

9TH BALTIC HOUSING CONFERENCE

Sustainable living environment: best practices in housing

14 September 2017, 10:00-17:00
Rakvere, Estonia
Rakvere Smart House (Lai str 20, Rakvere)

*The event takes place under the auspices of
the Estonian Presidency of the Council of the European Union.*

*The conference is organized by the Estonian Union of Co-operative Housing Associations
in cooperation with HOUSING EUROPE – The Federation for Public, Cooperative and Social Housing.*

The 9th Baltic housing conference provides space for discussions on best practice in the EU for improving the living environment. It will introduce Estonian experiences with energy-efficiency in multi-apartment buildings. Another aim is to enhance cooperation between housing organisations from the EU and countries such as Ukraine and Belarus.

The conference will focus on the possibilities for citizens to contribute to the reduction of greenhouse gas emissions and help fulfil the targets of the 2030 climate and energy framework by reducing the energy consumption of buildings. The conference declaration of participating housing organisations will define the specific concerns of the sector and contribute to the implementation of the 2030 Agenda.

On the following day, there will be a study visit to Rakvere, introducing the best examples of how the energy efficiency of buildings is being improved and greenhouse gas emissions reduced in the area.

*The event has received funding from the Government Office
and the National Foundation of Civil Society.*

On the following day

STUDY VISIT

Energy-efficient solutions for buildings

15 September 2017, 10:00-14:00, Rakvere

PROGRAM

Rakvere Rohuaia kindergarten

Reconstruction of the nursery building was finished in 2015, energy class A, 92 kWh/(m2a)

Seminar street – renovation of residential buildings and reconstruction of public space

Seminar street is the most densely populated area in the city. Most of the typical apartment buildings, which are the legacy of the soviet regime, are located along the street. Reconstruction was carried out in the area during last years, rising the level of energy efficiency in the residential buildings and supporting sustainability of the urban living environment.

Rakvere Distillery

The spirit distillery uses only renewable energy – both electricity and heat are produced from wood waste.

REGISTRATION AND PRACTICALITIES:

PARTICIPATION

Participation at the conference and study visit is free of charge but registration is required. Registration form for English-speaking participants: [REGISTRATION FORM](#)

Info & contact: +372 55 585 701 or info@ekyl.ee

GETTING TO THE VENUE

Rakvere

9th Baltic Housing Conference will take place in Rakvere, Estonia's fifth largest city and the county seat of West-Viru County, with distance of 100 km from Tallinn.

You can travel from Tallinn to Rakvere by bus (Tickets www.tpilet.ee/en) or by train (Tickets www.elron.ee/en/) but **you are recommended to use bus transportation between Tallinn-Rakvere-Tallinn organised by the conference team.**

For booking a place in the conference bus, please add your request to the registration form or send by e-mail to info@ekyl.ee. Please inform us on your travel itinerary and we will send you the information about the transportation schedule to Rakvere (from Tallinn Airport or Port of Tallinn) and back to Tallinn. The trip between Tallinn and Rakvere takes 1 hour.

Rakvere Smart House

The conference venue – Rakvere Smart House – is situated in the town centre, [Lai str 20](#).

Conference venue – Rakvere Smart House – it is the first public nearly-zero-energy building in Estonia that utilizes different building automation technologies and has been engineered from start to finish using BIM methodology. Different sustainable energy sources, like solar panels and geothermal heating pumps are used for the heating of the building.
